China thanks Pakistan for its consistent support to China on issues concerning Taiwan, Xinjiang, Tibet, the South China Sea and others. China will continue to firmly support Pakistan in safeguarding its sovereignty, independence and territorial integrity, firmly support Pakistan's choice of development path according to its own national conditions, firmly support Pakistan in maintaining national stability and promoting economic and social development, and firmly support Pakistan in playing a constructive role in promoting regional peace and stability.

Second, center on the construction of the China-Pakistan Economic Corridor and form a "1+4" cooperation pattern by focusing on cooperation in the Gwadar port, transportation infrastructure, energy and industry to achieve win-win cooperation and common development. Both sides should promote the construction of the Gwadar port for steady progress and promote the construction of the China-Pakistan Economic Corridor for a comprehensive, balanced and steady development to benefit the peoples and make it a major project with exemplary significance for the connectivity construction in the region. It is of significant meaning for the energy project in China-Pakistan cooperation to be chosen as the first project supported by the Silk Road Fund. Both sides should make overall plans for the construction of industrial parks along the China-Pakistan Economic Corridor and finalize negotiations on the China-Pakistan free trade area at an early date to lead the construction of free trade areas between China and the South Asian countries. China welcomes Pakistan to actively participate in the founding of the Asian Infrastructure Investment Bank.

Third, strengthen China-Pakistan security cooperation. China appreciates Pakistan's contribution to the international counter-terrorism campaign, firmly supports Pakistan in advancing its counter-terrorism strategy in accordance with its own national conditions and is willing to assist Pakistan in enhancing counter-terrorism capacity building. China hopes that Pakistan continues to take effective measures to safeguard the safety of Chinese institutions and personnel in Pakistan.

Fourth, jointly hold activities of the China-Pakistan Year of Friendly Exchanges in 2015 and promote exchanges in fields such as culture, education, local governments, youth, think tanks and media. In order to commend the contribution the relevant persons and groups made in promoting China-Pakistan

friendship, China has decided to confer "Friendship Award of the Five Principles of Peaceful Coexistence" to the relevant folks and groups of Pakistan.

Fifth, make best use of platforms such as the United Nations (UN) and the Shanghai Cooperation Organization (SCO) to enhance policy coordination and strategic cooperation in major international and regional issues such as the UN reform, climate change, and food and energy security.
